

ONE STOP TAX: THE BEST CHOICE IN FRANCHISING

One Stop Tax is one of the fastest growing tax preparation franchise. Whether you are seeking for a new business opportunity or you would like to change your career, you can rest assured that we will provide you with the support system necessary to facilitate the development and growth of your business. One Stop Tax Franchise model is designed for both active and passive investors. Our franchisees are all different, retirees, veterans, CPA'S, full time Mom's, insurance agents etc. In spite of the different backgrounds this are all people who envisage investing in a business opportunity that is recession resistant.

Essentially, the ideal candidate at One Stop Tax should be dedicated and success driven. Organizational and leadership qualities are paramount not to mention strong passion and keen business acumen. We recognize that two of the most fundamental elements required for the success of a franchise is training and support. We provide full training in the skills required to run a tax business and ensure that our franchisees are fully prepared

thoroughly with initial and ongoing training. All operating procedures are also very clearly stated and identified in our franchise operations manuals.

In our line of business, it is imperative that we keep abreast of changing times and requirements hence our company culture is critical to success. Our culture is built around the Golden rule. "We treat our franchisees and customers the way we want to be treated" In fact One Stop Tax is such an ardent purveyor of the Golden rule that it was nominated for the Golden Rule International Award in April of 2015.

C.E.O Dr. Charles Kinuthia takes seriously the role and importance of contributing to the long term sustainability of communities. He believes in corporate social responsibility and giving back to the less fortunate which has become an integral part of our corporate culture.

In business a great purpose and mission is not enough-execution is key that is why we are focused on building systems that
